HELP AND ADVICE

Shortly after birth, all babies with a cleft will have a feeding assessment by a Clinical Nurse Specialist (‘Cleft Nurse’) from their regional Cleft Team. If specialist bottles and teats like those in this catalogue are required, parents will be told which ones they need and shown how to properly use them.

The bottles and teats in this catalogue are suitable for formula or expressed milk. Please follow the care instructions carefully, and speak to your Cleft Nurse if you have any questions or issues using them.

CLAPA has a number of information booklets available free for families, including one about feeding a baby with a cleft. This information is also available on our website, www.clapa.com. However, every baby’s needs are unique, and you should always seek advice from your Clinical Nurse Specialist in the first instance.

NOTES

Fill in the below information with the help of your Clinical Nurse Specialist and keep it handy when ordering feeding equipment.

HOW TO ORDER

Visit www.clapa.com/shop to place an order on our mobile-friendly website.

Call the CLAPA Office on 020 7833 4883 Mon-Fri 9am-5pm to order over the phone. Please note CLAPA staff cannot give feeding advice.
TEATS

Your Clinical Nurse Specialist will tell you which bottles and teats your baby needs. CLAPA staff cannot give advice. All teats are ‘orthodontic’ and fit standard-necked bottles.

Teats 1-3 are made of soft latex and will naturally swell up as you use them. We recommend you replace them at least every 4-6 weeks.

1. MAM TEAT (All Varieties) £3.00 for 2 teats
A soft orthodontic shaped teat. Vented varieties have a small slit on the side which acts as a vent to help in the elimination of extra air. Newborn size suitable for smaller babies.

   T25: Vented Newborn (Size 1)
   T26: Vented All Ages (Size 2)
   T27: Non-Vented (Size 2)

2. NUK CLEFT PALATE TEAT £3.50 for 1 teat
A very large, flat-headed teat which is only recommended for certain babies - please only order if advised to do so by your Clinical Nurse Specialist. This teat comes without a hole.

   T28

3. TAPERED TEAT £2.00 for 1 teat
A 2-inch soft tapered teat. Supplied without a hole. Fits both standard and narrow-necked bottles.

   T29

4. DR BROWN’S TEATS (All Varieties) £3.00 for 1 teat
These teats fit Dr Brown’s Specialist Feeding Bottles and come in a number of sizes to provide different flow rates. Made of super-soft, high-grade silicone.

   A: Ultra Preemie Teat
   B: Preemie Teat
   C: SN Level 1 Teat
   D: SN Level 2 Teat
   E: SN Level 3 Teat
   F: SN Level 4 Teat

BOTTLES

MAM 270ml Bottle (approx. 9oz) £4.00
SOFT BOTTLE WITH COLLAR, DISC & TEAT COVER
A large standard-necked bottle designed in conjunction with CLAPA to feed babies who have difficulty sucking. Instructions are included.

Softplas Scoop £2.00
Fits the same way as a teat

B35

T31

6. DR BROWN’S BOTTLE & TEAT PACK £19.00
includes 2 x bottles (4oz OR 8oz), 2 x teats (size 1&2), 2 x infant-paced feeding valves, and 1 x cleaning brush. This speciality feeding system can be helpful for babies with sucking difficulties and does not need to be squeezed.

A: 4oz/130ml Bottles with Level 1 & 2 Teats
B: 8oz/130ml Bottles with Level 1 & 2 Teats

7. DR BROWN’S MICROWAVE STERILISE BAGS £8.00 for box of 5
Ideal for sterilising bottles and parts, as well as dummies and training cups. 20 uses per bag. Instructions included.

HABERMAN FEEDER £21.00
This is a specialised bottle system designed to help babies with serious sucking difficulties. These should be purchased directly from Athrodax Healthcare International Ltd, 01594 544 440, www.athrodax.co.uk

CLAPA has a small emergency stock and can supply a single complete Haberman Feeder if there is an urgent need.
