

# Adult Services Strategy 2022 – 2025

## Aim

To provide relevant services and resources for adults living with a cleft and/or associated health issues to increase confidence and empowerment in their daily lives.

## Mission

To support adults throughout their cleft journey at every stage of their lives.

## Outcomes

- Access to a community of other people who have similar experiences and creating a space safe for adults to connect with each other
- Feeling less socially isolated by attending our activities or events
- Increased self-esteem and self confidence
- Knowing what services and support systems are available to them
- Feeling involved in developing cleft resources and research opportunities
- A clear transition from young people to young adults
- Adults feel well represented within the CLAPA community
- Access to resources which promotes confidence and knowledge at different stages of life.
- Empowering and supporting adults to make their own decisions regarding their Cleft Care treatment
- Access to a “buddy” scheme for ease of transition and/or confidence and knowledge
